Economic Development Administration

QUALIFIED AREAS

under the
Public Works and Economic Development Act of 1965, as amended

Public Law 89-136

Explanation

This is a listing of all areas currently officially designated as Title IV redevelopment areas and all areas currently qualified for designation, but not yet officially designated, as Title IV redevelopment areas under the Public Works and Economic Development Act of 1965, as amended. Only those areas for which designation dates appear in the third column are presently officially designated.

In the second column of the listing, there appear symbols indicating the various bases upon which areas qualify for eligibility for financial assistance under the Act. The qualification basis, or bases, for each Title IV redevelopment area is indicated by one, or a combination, of the symbols defined below.

1 : Substantial and persistent unemployment

2 : Low median family income

3 : Indian reservations or trust or restricted Indian-owned land

4 : Unusual and abrupt rise in unemployment resulting from the loss, removal, curtailment or closing of a major employment source

6 : Special impact area

D : One redevelopment area designated in a State originally not having a designated redevelopment area qualified on any other basis

7 : Decline in per capita employment

8 : Substantial unemployment

U. S. Depository Copy

The maximum grant rates for public works and development facilities projects shown in the fourth column are based on economic characteristics of the areas to which they apply. Note, however, that the following maximum grant rates are applicable in these areas to specific categories of projects as indicated:

Certain projects of Indian tribes which are or will be located in Indian reservations or trust or restricted Indian-owned land areas 100%

Projects located in redevelopment areas designated under Section 401(a)(6) of the Act, applied for by States or political subdivisions thereof which have demonstrated they have exhausted their effective taxing and borrowing authority 100%

Projects located in areas designated under Title IV of the Act, which areas have been designated by the President of the United States under the Disaster Relief Act of 1974 (Public Law 93-288), provided:

(a) Such areas retain both EDA and Disaster designations, and

(b) Such concurrent designation has not exceeded one year in duration 80%
